

Christ Church CofE Primary School

5th March 2021

Dear Parents and Carers,

Congratulations for completing your second (and hopefully your last) batch of home schooling– you made it!

On Monday, we open our doors once again to everyone and we are so excited. The school day will run in the same way that it did before Christmas. Our risk assessments are continually updated and we have lots of things in place to minimize mixing of children and the risk of infection. I am more than happy to discuss any concerns that you may have about the return to school– just contact school and I can arrange a virtual meeting or telephone call.

	Drop off	Collection
Nursery	8.40-8.55	12pm
Reception	8.40-8.55	3pm
Year 1	8.40-8.55	3pm
Year 2	8.40-8.55	3.10pm
Year 3	8.40-8.55	3.10pm
Year 4, 5 and 6	8.40-8.55	3.20pm
Sibling Group	8.40-8.55	3pm

We have a really detailed program planned for the next three weeks and into the summer term. This is a really exciting time for school, we want your children to really flourish and enjoy their time in school so that they can learn and make lots of progress. Over the coming few months you will be starting to see what we have been working on for the past year. The outside area is starting to be transformed and the inside area has been carefully adapted to ensure that we can offer your children an even higher quality of education.

Have a fabulous weekend
Mrs Bradford

Keeping School Open for all

Please support us in keeping school open for everyone

- Minimizing the number of adults attending the site– only one parent or carer at drop off and collection
- Adults to wear masks on site
- Stick to the correct timings for drop off and collection so that your child doesn't come into contact with any other staff or children not in their bubble. If you don't it increases the chances that your child may have to self isolate.
- No excess bags or resources to be brought into school so that we can keep areas clear and easier to clear throughout the day.

All of these measures will limit the mixing of children and adults and so reduce the risk of further closures.
