

# Christ Church CofE Primary School

**18th June 2021**

Dear Parents and Carers,

I am sure that you will have seen and heard about local schools closing bubbles due to the new variant of Covid. This all means that we must be really careful planning transition events so that we stick rigidly to our risk assessment. All children in school will have a chance to meet their new teacher and spend an afternoon with them.

## **Key Dates Information**

**On Tuesday evening, following the government announcement on Monday that restrictions would not be lifted for another few weeks. We are now unable to do any parent invited events onsite. For this we are really sorry, we would love for you to be able to be involved in events such as sports day and see the fantastic progress your children have made, but guidance and our risk assessment will not allow it. We will however, continue to plan fun events for the children including a disco day during the last week of term.**

Have a lovely weekend,  
Mrs. Bradford

**Please help us by supporting our risk assessment which includes the following key information-**

**Masks are still required on the school site along with social distancing.**

**Please arrive at school on time—not early— so that your children are not playing on outside equipment and mixing with other children, especially those not in the same class.**

**We work really hard to ensure that different classes in school do not mix, if they are then mixing at home time or start time, it could allow cases to quickly spread throughout school and mean several bubbles closing.**

**We also have a staggered end of day to ensure we avoid adults congregating on the school yard. Please leave straight after collecting your child.**

## **School Meals**

From Monday the 21st June, school catering services have a new menu in place. It is a three week cycle menu and we will start with menu one.

Please see our website for the full menus.
